

GECO BLACK 1-8x24i Tac

Item no. 2403722

The tactical GECO Black 1-8x24i Tac rifle scope has a design with a military-like appearance. The horseshoe reticle enables the intuitive combination of fast close-range shot sequences with precise acquisition over longer distances. The 1st image plane reticle, 34 mm central tube with excellent adjustments and lockable target turret leave no wishes unfulfilled.

<i>Reticle</i>	Horseshoe

GECO BLACK riflescopes

This series offers a 8× zoom with 34 mm central tube. They both mirror the outstanding optical performance of the GECO Gold line, but were developed specifically for tactical shooting. This includes high adjustment travel, the 1st image plane reticle, the integrated target turret and the included flip cover. The 10-year warranty is indicative of the high quality and reliability of these models.
